Date: Sep 21, 2018

Primary Location: Tequesta, FL, US, 33469

Company: NextEra Energy

Requisition ID: 28338

Jupiter-Tequesta A/C, Plumbing & Electric provides plumbing and air conditioning services to customers in Broward, Palm Beach and Martin counties in Florida. It's owned by a subsidiary of FPL Energy Services – a leader with more than 25 years of experience providing effective, comprehensive energy solutions.

Position Specific Description

Our team is committed to ensuring all components of our customer's air conditioning, plumbing and electrical systems are functioning like new. If you have the same vision and drive for excellence, this is the team for you! In this role you will perform the planning, installation, maintenance, and repair of the heating, ventilation, and air conditioning systems.

Job Overview

Employees in this position are trained in heating and air conditioning installation, from driving material equipment removals, to stocking the warehouse and maintaining and cleaning furnace systems. This position assists our HVAC Technicians with the installation, maintenance, and repair of residential and commercial HVAC equipment.
